For the convenience of the residents, the Recycling Center located at the Department of Public Works, 899 Perrineville Road, is now opened additional days during the week and will continue to be opened on the weekends.

Tuesday/Thursday: 11a.m. - 3 p.m.

Saturday/Sunday: 8 a.m. to 1 p.m.

Closed on Christmas Day and New Year's Day

Items that are accepted at the Recycling Center are: newspapers, magazines, cardboard boxes (MUST be flattened)

REUSE

RECYCLE means to process old, used items in order that the material can be used to make new products. Examples of things that are often recycled are glass bottles and jars, plastic bottles, newspapers, aluminum cans and mixed papers.

REDUCE refers to lessening the amount of items or resources that are consumed, using only the amount that is needed, and looking for alternatives that will lessen our use.

REUSE means extending the 'life' or reusing an item rather than discarding or throwing it away.

What is SINGLE STREAM RECYCLING?

Single Stream Recycling reduces collection costs, permitting use of single-compartment trucks and automated handling of fewer, larger containers. Reduced sorting encourages residents' participation and may generate more materials. However, increased processing costs reduce the value of the collected materials and, without clear guidelines for those generating the recyclables, may increase contamination by unsuitable and food contaminated products (more residual waste created during processing). Please review the list of permitted recyclables to enter the single stream process. Workers for Millstone's Recycling Yard are going to be more vigilant with turning away non-recyclable items.
