## **STOP THE SPREAD OF SPOTTED LANTERNFLIES!**

### **LOOK EVERY DAY IN YOUR OWN BACKYARD!**

**Why:** Invasive Spotted Lanternflies threaten to destroy over 70 vegetable & fruit plants and hardwood trees!

### **What to Look For:**

Look on your trees, fences and buildings for evidence of Spotted Lanternfly egg masses and nymphs.

Here's what they look like:

Egg mass on tree

Resource: [Farmanddairy.com](http://Farmanddairy.com)

1st instar nymphs

Resource: [Canadian Food Inspection Agency](http://Canadian Food Inspection Agency)

### **What to Do:**

- 1) Take a photo. Send to **1-833-BADBUG-0**
- 2) "Devitalize" any egg masses & nymphs by scraping them into a zip top bag and pouring in rubbing alcohol. Seal the bag & put it in the trash.
- 3) Share your photos on social media - Facebook, Twitter or Instagram and tag us - **#spottedlanternflies** and **#cmpsmillstone**
